

# The 2018 Better World MBA Ranking Methodology

## Corporate Anights

WWW.CORPORATEKNIGHTS.COM

## Better World MBA Ranking: fast facts

#### **Overview**

- Annual ranking of MBA programs sustainability performance
- Released each fall in Corporate Knights
   Magazine and <u>www.corporateknights.com</u>.

#### **Eligibility**

 Size: All business schools in the most recent FT100 MBA Ranking are automatically included. All business schools accredited by either one of AMBA, AACSB or EQUIS and all current PRME Champions are invited (and communicate their participation on an opt-in basis).

#### **Approach**

- Ranking is based on publicly-disclosed data (e.g., school's website, Google Scholar, general internet searches). All required datapoints are pre-populated. Submissions from schools are <u>not</u> required but your review is kindly requested.
- Methodology is based on to 5 key performance indicators (KPIs).

#### Contact info and to learn more

- Email <u>research@corporateknights.com</u> if you would like to confirm the correct contacts for your organization
- Sign up for email updates on future rankings and research from Corporate Knights.

## Ranking is conducted by Corporate Knights, a specialized media and investment research firm

Corporate Knights is a Toronto-based, employee-owned B Corp that operates in three segments:

#### Corporate Knights Magazine

- World's largest circulating magazine focused on sustainability and responsible business.
- Reaches 435,000 of the world's most influential business and political decision-makers.

#### CK Research

- CK Research offers a range of corporate sustainability ratings, investment product ratings and tools.
- CK Research powers several external research projects (e.g. Newsweek Green Rankings, Carbon Clean 200, Sustainable Stock Exchange Ranking, Global Green Financial Index).

#### Council for Clean Capitalism

- CEO-supported group catalyzing smart and efficient public policy.
- Engages with leading public policy-makers.

## Philosophical perspective of the ranking

- Relevance: The ranking is meant to be representative of sustainability leadership in the current socio-economic context.
- **Transparency**: The precise methodology of the ranking and the results of the process are fully disclosed.
- Objectivity: Eligible entities are assessed using quantitative data and performance indicators.
- Public data: Only data-points that are part of the public domain are used.
- Comparability: Entities are compared against their peers based on performance indicators for which the underlying data are reasonably well disclosed.
- **Engagement**: Entities eligible for the ranking are informed prior to the ranking, so as to have an opportunity to ensure the necessary data is accurate and made available publicly.
- Stakeholders: Stakeholder feedback is actively solicited throughout the project. A
  Panel of Experts, consisting of several sustainability practitioners, review and
  comment on all aspects of the methodology.

KPI	Methodology
	We count the proportion of a school's core (mandatory) courses from their full-time MBA program that integrate relevant sustainable development themes. This is determined by looking at the course description available on the program's website.
Core Courses (weight: 30%)	See list of topics considered as part of "sustainable development" here:
	https://docs.google.com/spreadsheets/d/1k29dEmAvkJeQbBep1C8_L8GCcCEYJeH0_guezA9fBt0/edit #gid=0
Notes:	

- 1. Where schools have multiple MBAs: We will research the core courses for a second MBA program only if:
- The school offers both a Sustainability MBA program (NOTE: Not a sustainability specialization or stream within a generic MBA program) in addition to a generic MBA program; AND
- The latest student intake for the generic MBA program is higher than that of the Sustainability MBA program.

In the above case, we will research the core courses of the Sustainability MBA program (weighted: 50%) and that of the generic MBA program (weighted: 50%).

Therefore, if a school offers both a generic MBA program and a Sustainability MBA program, and the Sustainability MBA program has the highest student intake, then we will research only one MBA program: the Sustainability MBA program.

Note: A "generic" MBA program would include any non-Sustainability MBA programs, such as the "full-time" MBA, "international MBA", "professional" MBA etc. Where a school offers several generic MBAs, research is to be conducted on the one with the highest student intake only.

2. Core courses are scored "1" if it is fully or substantially dedicated to areas of sustainable development. A score of "0.5" is given in cases where the course only partially covers any of the areas of sustainable development.

KPI	Methodology
Research Institutes and centres (weight: 10%)	We count the number of research institutes and centres (regardless of location, sponsored or run in partnership with another school) out of a maximum of five that are fully or substantially dedicated to areas of sustainable development. This is determined by looking at the areas of research for any given institute and centre that is available on the school's website.
	See list of topics considered as part of "sustainable development" here:
	https://docs.google.com/spreadsheets/d/1k29dEmAvkJeQbBep1C8_L8GCcCEYJeH0_guezA9fBt0/edit#gid=0

#### Note:

1. A research institute and centre is scored "1" if it is fully or substantially dedicated to areas of sustainable development. A score of "0.5" is given in cases where it also covers other areas of research that are not within the list of sustainable development topics.

KPI	Methodology
Faculty research intensity (weight: 30%) and number of citations intensity (weight: 20%)	The number of peer-reviewed publications in academic journals between 2015 and 2017 authored or co-authored by a faculty member of the business school and the number of citations that are considered as part of "sustainable development". This is determined by looking at all of a school's faculty members' publications during the above-specified period, in order of priority:  - From the school's website;  - If list of publications and number of citations are not available from the school's website, from Google Scholar.
	See list of topics considered as part of "sustainable development" here:
	https://docs.google.com/spreadsheets/d/1k29dEmAvkJeQbBep1C8_L8GCcCEYJeH0_guezA9fBt0/edit #gid=0
	The faculty research intensity is: Number of peer-reviewed publications in academic journals between 2015 and 2017 authored or co-authored by a faculty member of your business school that are considered as part of "sustainable development"/Total number of faculty members*.
	The number of citations intensity is the sum number of citations for all peer-reviewed publications in academic journals between 2015 and 2017 authored or co-authored by a faculty member of your business school that are considered as part of "sustainable development"/Total number of faculty members* x 10.

<sup>\*</sup> The list of faculty members is sourced from the school's website. Any full-time faculty (professor, lecturer, associate or adjunct) counts as 1; any visiting or part-time faculty counts as "0.5".

KPI	Methodology
Faculty gender diversity (weight: 5%)	The percentage of faculty members who are women out of the total number of faculty members. The list of the faculty members is sourced from the school's website*.
Faculty racial diversity (weight: 5%)	Numerator: Percentage of the school's faculty members who can be identified by photo, name and or biography as clearly not part of the country's majority race or ethnic group**. The main visible races or ethnicities regardless of place of birth or citizenship are***:  1. White  2. Black  3. Chinese  4. Filipino  5. Japanese  6. Korean  7. South Asian-East Indian (including Indian from India; Bangladeshi; Pakistani; East Indian from Guyana, Trinidad, East Africa; etc.)  8. Southeast Asian (including Burmese; Cambodian; Laotian; Thai; Vietnamese; etc.)  9. Non-white West Asian (includes Turkey, Middle East and Caucasus)  10. North African or Arab (including Egyptian; Libyan; Lebanese; etc.)  11. Non-white Latin American (excluding Indigenous persons from Central and South America, etc.)  Denominator: % of school's country population not part of the country's majority racial group. A break-down of majority racial groups by country is available here: https://docs.google.com/document/d/1tb9ZOvD3I7V6J7fCZ09uZgQhIAil8pPEI-ZJtqmeAes/edit

Note: Any full-time faculty (professor, lecturer, associate or adjunct) counts as 1; any visiting or part-time faculty counts as "0.5".

<sup>\*</sup> Research done during the months of May and June 2018

<sup>\*\*</sup> To avoid perpetuating historical privilege, scoring does not count faculty members from any racial group(s) that comprises 50% or greater global share of all non majority racial group faculty members.
